

## FABRIC GRAPHIC PRINT GUIDELINE

Observing the following Art Requirements helps enable your project to progress smoothly and will allow us to produce the highest quality print for you in the desired timeline. Fabric templates for preparing artwork are available upon request from your account team. When sending files, please include a reference PDF.

### BEST FILE FORMATS

Adobe Illustrator (.ai), Adobe Photoshop (.psd) (.jpeg), (.tiff) and (.pdf)

### CHECKLIST FOR SUBMITTING PRINT-READY FILES

- ☐ All files names must be in English
- ☐ Layers and Clipping Mask titles must be in English
- ☐ All fonts MUST be converted to outlines
- ☐ Provide 2 inches (50.8mm) of bleed to each side around perimeter
- ☐ Files must be built with PMS colors in order to achieve color matching.  
*(Files build outside of Adobe Illustrator or with CMYK values will print as is with no PMS color matching)*
- ☐ Provide all linked/embedded images in addition to print-ready files
- ☐ Linked /embedded images should not exceed 72 dpi at full size  
*(Files larger than 1GB will require graphic manipulation charges)*
- ☐ Save files down to under 2GB
